

hp e-scanner

share

Scan and email photos or create a personal Web page with HP's new e-scanner. With HP's e-scanner and your WebTV® Plus receiver, you'll soon be sharing every event and memory with friends and family—get ready to pair HP with WebTV.

Share in seconds

Stay in touch—HP and WebTV make it fun

Now you can share birthday photos with grandma before the excitement has worn off. Team HP's new e-scanner with your WebTV Plus unit to share photo-quality images quickly and easily. Send to anyone with an email address—they don't need to have WebTV to receive your scanned photos.

You can also scan and post your photos to a Web page your friends can access. Create the page with WebTV Plus's easy Page Builder software, then press the HP e-scanner button to add photos!

Scan photos up to 4 x 6 inches. If your photo is larger or doesn't easily fit onto the scanner bed, the e-scanner's lid is removable so you can easily position your picture within the 4 x 6-inch scanning surface.

Effortless results

Easy to set up, easy to use

Connect and scan! Just plug in the power cord, connect the scanner to your WebTV Plus box, and you're ready to scan. No software to install, no extra cables to buy—it's all in the box.

The HP e-scanner is small enough to fit in your entertainment unit with your WebTV Plus receiver, and includes an extra long cable so you can easily move the scanner and still stay attached to WebTV.

When you're ready to scan, just press the "scan" button for effortless, one-touch results. Plus, the "rotate" button turns electronic images 90 degrees so tall (portrait) photos are displayed with the top of the picture up, not sideways.

Features for fun

- One-touch convenience—press a button to scan or rotate photos up to 4 x 6 inches
- Fits neatly in your entertainment center with your WebTV Plus box.
- Lift-off cover accommodates larger photos
- Automatically optimizes scanned images for email
- Extra long cable lets you move the scanner and still stay attached to the WebTV unit
- Connect in seconds—no software installation necessary
