

HP QuickWeb

access your digital
world **in seconds**

Sometimes you just want to quickly check your e-mail or grab directions. When you don't need to wait for a full Windows® startup, HP QuickWeb lets you access your favorite digital content within seconds of powering on your PC.

The power of HP QuickWeb

Whether you want to check e-mail,¹ make a Skype™² call or simply listen to music¹ —it's all ready for you within 30 seconds or less of powering on your PC thanks to HP QuickWeb.

- browse the **web**¹
- chat on **IM**¹
- **skype**™ with friends and family¹
- read and send **e-mail**¹
- check your **calendar**¹
- listen to **music**¹
- view and manage **photos**¹

Push power and go

HP QuickWeb lets you get to the web, e-mail,¹ Skype™² and more, so you can start using the applications you need right away. Skip the boot-up of the full Windows operating system and go directly to the fun stuff in 30 seconds or less.

HP QuickWeb's instant-on web interface helps you make the most of the moment. Now, even when time is tight, you can get online and access the content you crave within seconds.¹

¹Internet access required and sold separately. ²Requires separately purchased Internet service and VOIP service contracts.
